

# Risk assessment sheet

Route: Oakhill Woods - Long

Date: 8<sup>th</sup> June 2015

Assessment carried out by: Brian Davis

Hazard	Who might be harmed?	How can the risk be controlled?	What further action is needed to control the risk?
Sustained uphill gradient initially	Those with heart or breathing problems	Walk slowly	Ask group to be patient with slow initial pace
Traffic at road crossings	All	Remind that roads are open to live traffic albeit light.	Advise walkers to look for traffic before trying to cross.
Cyclists	All	Advise walkers to maintain awareness on shared cyclist/pedestrian sections.
